EXPERIENCE

Appian

Remote

UX Design Intern

June '20 - Aug '20

Designed two interface templates to assist users designing with Appian. One also acted as a best practices guide in official external UX documentation.

Redesigned the internal quarterly feedback interface to be more intuitive and elicit more productive responses. Conducted user interviews and usability tests with prototypes implemented in Appian's internal language.

Implemented "document browser" component into Appian's codebase to make the drag and drop library more flexible and better aligned with users' needs.

NittanyAI Alliance

State College, PA

UI/UX Design Intern

March '19 - May '20

Redesigned PSU's Transfer Credit Tool and collaborated with developers to redefine its functionality through wireframes, mockups, and HTML/CSS prototypes. Met with Advising and Admissions to gain insight on problem areas and propose our solutions.

West Arete

State College, PA

UI/UX Design Intern

June '19 - June '20

Visually redesigned MIT's Living Wage Calculator with XD mockups and HTML/CSS with the goal of increasing reach and impact. Live site at livingwage.mit.edu.

Designed an interface and experience for an individualized Learning Management System. Collaborated with PO to transform clients' thorough, broad-scope research into a well-defined experience through ideation, sketching, and XD mockups/prototypes.

Penn State HCI Research Lab

University Park, PA

UI/UX Designer

Jan '19 - May '19

Pfizer Inc.

Collegeville, PA

UI & Marketing Intern

Jun '18 - Aug '18

PROJECTS

Synthesis

Web-based showcase for the PSU Graphic Design class of 2021

Web Design & Dev Lead

Sept '20 - Present

Working alongside four designers to create an immersive web experience.

Building a website with HTML/CSS/JS and 3D web graphics using Three.js and GLSL.

Communicating with film, branding, photo, and exhibition teams to ensure cohesiveness.

Revu

React web app that generates quizzes to increase student participation

UI/UX Designer

Jan '19 - Sept '19

Collaborated with a full stack developer on a 9 month project.

Led UX decisions, designed XD mockups, and wrote JSX & Styled Components.

Wrote & presented pitches/demos to receive funding and wrote detailed documentation.

LionPlanner

Web app that simplifies college course planning with drag and drop

UI/UX Designer

Jan '18 - Oct '18

Collaborated with a team of six front & backend developers on a 9 month project.

Led UX decisions, made HTML/CSS prototypes, and wrote & presented pitches/demos to receive funding.
